

We believe that there are two
key ingredients that make our
food taste better than anyone else's;

Passion & Pride.

We are passionate about food & giving all our
customers the chance to experience something new,
unique & tasty. We also take great pride in giving our
customers exceptional service combined with the
best, freshest food to be found. It is these two key
ingredients that The Terrace was established on, way
back in 1985. We may have grown a lot in over 20
years, but our family run business & guiding
principles have remained the same.

Enjoy your food.
